

TFL Tech US

NBFC Software

A Scalable Lending Platform for Global Financial Institutions

TFL Tech delivers a comprehensive, secure, and configurable NBFC Software designed to streamline the lending lifecycle for non-banking financial institutions. With global adaptability and compliance-ready modules, it's built for digital-first, high-growth environments.

Key Capabilities

▶ Custom Loan Product Configuration:

- Supports individual, group, and institutional loans
- Multi-level approvals, grading, interest, and fee structures

▶ Omnichannel Onboarding

- Web-based application portal with OTP login
- Customer and agent dashboards
- Supports diverse loan categories (Home, Personal, Business, etc.)

▶ Loan Disbursement & Vendor Integration

- Disburse via bank transfer, cheque, or cash
- Pre-disbursement verification & supplier mapping

▶ Insurance & Fee Automation

- Automated premium and charge calculation
- Upfront deductions at disbursement

▶ Repayment & Tracking

- Client and batch repayments
- PDC entry, recovery sequencing, and activity alerts

▶ Global Reporting & Compliance

- Integrated regulatory reporting engine
- Bank statement upload & reconciliation

Why Choose TFL Tech?

- ▶ 25+ years in enterprise fintech
- ▶ Proven deployments across banks & NBFCs
- ▶ Modular, scalable, and localization-ready
- ▶ Secure, audit-compliant architecture
